

## STOP-BANG Questionnaire

### What is Obstructive Sleep Apnea (OSA)?

When your breathing stops or slows down while you are sleeping, this is known as obstructive sleep apnea (OSA). If you snore loudly or gasp for air when you sleep, or you are always tired, you may have OSA.

Complete the questionnaire below to aid your provider in determining your risk of OSA.

### PATIENT INFORMATION

Name: \_\_\_\_\_

Male/Female: \_\_\_\_\_ Age: \_\_\_\_\_

Height: \_\_\_\_\_ Weight (pounds): \_\_\_\_\_

Neck or collar size (we can measure if not known): \_\_\_\_\_

### STOP-BANG QUESTIONS

	YES	NO
